MAX & LUUK

MAX & LUUK (2013) is a brand of BOREK parasols and outdoor furniture (1977), alongside YOI outdoor furniture (2019). This youthful and innovative brand takes its name from the sons of the owner and director, and is distinguished by exquisite materials, enticing designs, and ultimate comfort. Since 1977, the family-owned business Borek has evolved into a leading brand both domestically and internationally.

This price catalog proudly unveils our latest trends, with a special spotlight on the enchanting Julia table featuring a unique Danish oval design. This subtle nod to timeless aesthetics, flourishing in interior design as well, adds an extra dimension to your outdoor space.

Experience the harmony of organic round shapes that take center stage in our collections, where comfort and style seamlessly merge. We complement this with earth tones such as the light color Linen and the new warm hue Brick.

We invite you to savor extraordinary moments, surrounded by the sublime luxury of our exclusive outdoor furniture collections.

SUNBRELLA®

All Sunbrella® cushions & pouffes are made to measure to provide extra comfort and the fabric is a washable Sunbrella® polyacrylate. Sunbrella is dyed completely, is UV-resistant, colourfast, water and dirt repellent, antifungal and is able to withstand water from swimming pools and seawater.

In the pricelist you can see which cushions are standard available for each product. Other Sunbrella® colours are available to order for a surcharge.

MAINTENANCE ADVICE: we advise using Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Fabric Protector.

COLOUR OVERVIEW & PRICELIST (DECORATIVE)CUSHIONS CERVO & PRATO

(DECORATIVE) CUSHIONS PRATO

Prato is a textured linen look outdoor fabric with a soft touch. The polypropylene material is resistant to fungus and bacteria. It is very high UV-resistant and has excellent light fastness. Prato is non-absorbent and withstands water from swimming pools and seawater.

ALL WEATHER

All the fabrics used by MAX&LUUK for all weather cushions are particularly suitable for outdoor use. These fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed especially for MAX&LUUK.

The following lounge collections are delivered with all-weather cushions as standard:

Alice/Brain/Chase/Rik/Rider/Stanley/Toya/Gray/
Glenn/Duke/Jaxx/Jago/Jane/Liam/Luke/Linda/
Mason/Mick/Mylo/Stanley/West & Tyler.

All other cushions are also available in all-weather fabric for a surcharge.

MAINTENANCE ADVICE

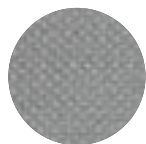

We advise using Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Fabric Protector.

(DECORATIVE) CUSHIONS CERVO

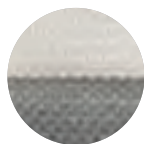

Cervo feels soft and has a lot of texture, which is why the fabric gives the outdoor furniture an extra luxurious look. Thanks to the special treatment, the material is water and dirt repellent.

MATERIALS & MAINTENANCE

ROPE

ROPE

Rope is a durable, innovative and strong material to use for the weaving of outdoor furniture. It is stylish, unique and has a soft touch, creating comfortable seating and stunning looks. The versatility of this material in combination with various weaving techniques applied on powder coated aluminum- and galvanised steel results in exciting and contemporary designs. Rope is made of thermoplastic polypropylene fibres and has been developed to meet all requirements for outdoor furniture. It is engineered to endure extreme outdoor conditions such as sunlight UV exposure, temperatures variances, mold and mildew. Rope is resistant to moisture, is colourfast, does not contain PVC, is washable and requires little maintenance.

MAINTENANCE ADVICE

Easy to clean with Fabric Cleaner. After cleaning it is possible to further protect the material with Fabric Protector. Never use a high pressure cleaner.

MATERIALS & MAINTENANCE

FIBRE/FIBREGLASS

FIBRE

MAX&LUUK fibre is a polyethylene synthetic wicker that has been developed to meet all standard specifications for outdoor furniture. The fibre is fabricated to endure rigorous outdoor conditions such as sunlight UV exposure, extreme temperatures variances, mold and mildew. It is resistant to moisture, sea water and chlorinated water.

MAINTENANCE ADVICE

Easy to clean with Multi Cleaner. A soft nylon brush or a low pressure air hose can also be used to clean between the weaving.

FIBERGLASS

Fiberglass is a composite material. Fiberglass mats are combined with resin and the products are shaped by hand in a 3D mold. It takes several days to finish a product. The combination of strength and low weight makes fiberglass an excellent material to make unique and complex shapes. Fiberglass is a weather resistant material.

MAINTENANCE ADVICE

Easy to clean with Multi Cleaner.

MATERIALS & MAINTENANCE

TEAK

TEAK

The teak of MAX&LUUK is a special selection of certified sourced teak from West Java and Sumatra. Teak furniture does not require any special maintenance routine or any additional protection apart from occasional cleaning. Left to age naturally outside, teak will gradually change from its original colour to a soft, silver-grey as the pigments in the surface layer of the wood begin to fade away. Every piece of teak has its own character and structure. Small inlays can be used to fill up minor existing imperfections. Teak is a natural material and cracks in the end grain of components, for example legs and laminated tops, may appear due to changes in temperature and humidity and the consequent change in moisture content of the wood. This is normal, especially in heavier components and it will not affect the serviceability of your furniture. Tables/benches 220cm or longer may begin to sag.

MAINTENANCE ADVICE

We recommend that you allow your teak furniture to weather naturally this way and simply clean thoroughly three or four times a year with Teak Cleaner to remove accumulated dirt. Teak is a natural product and is not treated against stains. It will absorb liquids if not sealed (leaves, food, olive oil, drinks etcetera). To protect teak against stains we recommend Teak Protector. Under no circumstances should a power washer be used to clean your product. Treating with teak oil or other preservatives is not necessary; it will not extend the life of your furniture and is purely cosmetic. We do not recommend oiling your furniture. If you intend to store your furniture over the winter, we recommend that you do so in a watertight garden shed or garage. However, we advise that you do not move teak furniture from the garden straight into a heated indoor room for storage, as the sharp differences in temperature and humidity may cause the wood to split.

MATERIALS & MAINTENANCE

ALUMINIUM

POWDER COATED ALUMINIUM

Fluidized powder coating applied to the aluminium structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. The material is fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE

Easy to clean with Multi Cleaner.

A photograph of an outdoor lounge area. In the foreground, there is a light-colored sectional sofa with several cushions, including a dark green one. A round, light-colored wooden coffee table sits in front of the sofa. To the right, there is a white armchair with a dark cushion and a wooden side table. The background features a tall, dense green hedge and several trees with light-colored bark. A large, light-colored patio umbrella is partially visible on the left. The overall scene is bright and sunny.
